WHAT TO BRING – Remember, LABEL LABEL LABEL!!!

MUSIC NEEDS:

- **Guitarists, bassists:**
  - bring your instrument, amp and connecting cords
- **Pianists:**
  - there are acoustic pianos on-site in all practice spaces (if you wish to bring a keyboard to practice in your room, you may, but it is not needed)
- **Drummers:**
  - bring your drum kit, including cymbals, sticks and stool (unless you are renting drums from CAMMAC, in which case you should bring your own sticks, and cymbals if desired)
- **All other instruments:**
  - bring your instrument and any amplification you would like
- **INTENSIVE Vocalists:**
  - microphones, cabling, stands and PAs are available on-site (you can bring your own mic for intensives and jams but it is not necessary)
  - bring charts in your key for the piano accompanist, with Eb/Bb versions for horns if you like
- **COMBO Vocalists:**
  - you may bring your mic, PA and cabling if you like (we do our best to supply most practice spaces with this equipment, but reach out to us before packing to see if you will need one)
- **All Participants:**
  - charts in a Real Book, iRealPro or other format on a tablet or android (digital technologies make transposition easy for vocal tunes at jams and other purposes, so androids and tablets are encouraged if you are familiar with them)
  - manuscript paper, pencils, erasers if desired
  - flashlight (some areas of the campus are not lit at night, so you will need a flashlight even if you are staying in the indoor accommodations)
